

Open for Business - Delivering Mental Health Clinical Research in the UK

**Tuesday, 25th November
The Great Hall, BMA House, Tavistock Square, London**

Hosted by CRN Mental Health, we aim to bring together representatives of the NIHR, the life sciences industry and NHS Foundation Trusts to help drive forward the successful delivery of mental health clinical research in the UK.

This free event and others like it are expected to attract Global/European/UK decision makers within the life sciences sector to learn more about the advantages of placing research in the UK and collaborating with the NIHR Clinical Research Network. Confirmed speakers for the day include Dame Sally Davies.

Please join us whether you are looking to contribute to the discussions or to learn more.
